Dist: Jhargram - 721506,
West Bengal, India

## PERSONAL INFO

**Date of Birth:**
17th June 2005

**Nationality:**
Indian

## SKILLS

AutoCAD | SAP | Lathe Operation | Drilling Machine | Quality Inspection | Basic Computer | MS Office

## LANGUAGES

- Bengali (Native)
- Hindi (Fluent)
- English (Working)

## INTERESTS & HOBBIES

- Fitness & Gym
- Travelling
- Photography
- Agriculture & Farming

# SAGAR BHUNYA

### DIPLOMA MECHANICAL ENGINEER | QUALITY ENGINEER TRAINEE

## CAREER OBJECTIVE

Motivated and detail-oriented Mechanical Engineering Diploma graduate seeking a challenging position in a reputable organisation where I can apply my technical knowledge, operational skills, and industrial training to contribute effectively to organisational growth while continuing to learn and advance professionally.

## EDUCATION

| QUALIFICATION | INSTITUTE / BOARD | SCORE | YEAR |
|---|---|---|---|
| **Diploma in Mechanical Engineering** | Durgapur Institute of Polytechnic (WBSCTVESD) | **8.45 CGPA** | 2022–2025 |
| **Matriculation (10th)** | Babu Dumro High School (WBBSE) | **Passed (4.15)** | 2022 |

## EXPERIENCE & INDUSTRIAL TRAINING

**Quality Engineer Trainee** — **1 Year Training**

**Graphite India Limited**

Underwent hands-on quality engineering and assurance training. Performed dimensional inspection, manufacturing process monitoring, material testing verification, and quality compliance checks in accordance with industrial standards.

**Vocational / Industrial Trainee** — **3 Months**

**CSIR – Central Mechanical Engineering Research Institute (CMERI), Durgapur**

Completed comprehensive 3-month technical training exposure exploring advanced mechanical fabrication, precision workshop practices, and state-of-the-art engineering research methodologies.

## TECHNICAL PROJECTS

**1. Contactless Conveyor System using Air Pressure**

Conceptualized and constructed a contactless pneumatic material handling system using pressurized airflow principles to transport delicate objects smoothly without direct mechanical friction and wear.

**2. Automated Waste Segregation Device**

Designed and built an automated sorting prototype capable of classifying and segregating municipal waste into wet, dry, and metallic categories using sensory detection to support eco-friendly waste management.
